# Clio This Month: More Clio, More Flexibility

Written by Teresa Matich

We hope you had a lovely Thanksgiving, and that you're getting ready for the holidays. Here at Clio, we've got a few early gifts for you: The new Clio experience is now available to customers in Europe and beyond, so if you're thinking about opening a branch in Malta, there's never been a better time to do it! We've also updated the Clio mobile app for the iPhone X.

Here are all the juicy details:

## Clio Update for iPhone X

Christmas is approaching, and Black Friday and Cyber Monday have just passed. As such, a new phone may be in the cards for you or your business partners. If you see an iPhone X under your tree, there's an update that will make Clio even easier to use this holiday season.

We've updated our biometrics security entry method to work with iPhone X FaceID authentication. With this update, all the benefits of Apple's cutting edge technology and security are also available when using Clio on your new iPhone.

See how it works: Download Clio for iOS.

## Clio presents at QuickBooks Connect Conference

Clio recently attended the QuickBooks Connect conference in San Jose. The event saw over 5,000 attendees participating in a week of developer, accounting, small business, and start-up sessions.

As part of QuickBooks Connect, Clio presented as a finalist in the QuickBooks App Showdown, a contest showcasing the most innovative, impactful, and dynamic new apps featured on Intuit's app store. 73 apps entered the contest, and Clio made it into the top 10!

Clio integrates directly with QuickBooks Online, making it easy to manage contacts, invoices, financial information, and trust transactions seamlessly between both tools. We work with a network of accountants and bookkeepers to ensure that Clio and QuickBooks Online system meets the highest standards.

## The new Clio experience: Now available for EMEA customers

The new Clio experience is now available for Clio users, all over the world. With customers in over 90 countries, Clio now has the ability to be translated into any language, accommodate any currency, and focus on the need of common law solicitors. It's the most flexible practice management software available anywhere.

We're also excited to further extend our platform for EMEA customers with Clio's new App Directory. We'll be working with a range of E.U.-focused tools and apps, such as Infotrack, for example.

## Tip: Applying credit notes

Wondering how to apply a credit note to your bills in the new Clio experience? We've got you covered.

Check out this article on applying write offs and credit notes in the new Clio experience for instructions on how to easily handle credit notes.
