Clio Recognized by All 50 State Bar Associations in the US: A Message from Jack Newton

Written by Jack Newton

Today, we are honored to receive the recognition of all 50 state bar associations in the United States. This milestone underscores our commitment to providing cutting-edge and reliable legal technology solutions for our customers that meet the highest standards of integrity and ethics. Earning the trust and approval of all 50 state associations is fundamental to Clio's mission of transforming the legal experience for all.

As the first-to-market cloud solution for law firms, Clio is partnered with and recommended by 100+ bar associations, law societies, and private legal groups globally—50 of which are state bar associations. We're proud of our reputation as a leading contributor to the establishment of industry standards for innovation and solutions in the legal technology space.

More importantly, this milestone is fundamental to increasing access to legal technology that positions legal professionals to succeed. Each year, through the Clio Academic Access Program, Clio donates over $25 million in free Clio software to legal clinics, paralegal programs, nonprofits, and law schools worldwide, including 17 of the top 20 law schools in the United States. This is work we are proud to do, and look forward to continuing. Enhanced access to justice, and the partnerships that relentlessly facilitate this, offer tremendous benefits for society as a whole.

Clio remains committed to developing innovative products that empower legal professionals, streamline processes, and ultimately make legal services more accessible for everyone. We look forward to continuing our work with the legal community to shape the future of the industry.

About Clio

Clio is the global leader in legal AI, powering legal work across the profession, from law firms of every size to corporate legal teams, government agencies, and courts. Its Intelligent Legal Work Platform unites the business and practice of law, connecting the

people, information, and processes behind legal work. Clio's AI brings the context together with legal sources drawn from Clio Library, a growing collection of more than one billion legal documents. Over 400,000 legal professionals in more than 130 countries rely on Clio to run their legal world. Learn more at www.clio.com.
